Profile

Full Stack Developer proficient in building scalable and responsive web applications using React, Next.js, Node.js, and MongoDB. Passionate about building real-world products and continuously learning new technologies like Generative AI.

EDUCATION

Bachelor of Technology Maharshi Dayanand University ,Rohtak GPA: 8.9 CGPA - Scholarship Recipient - Completed online course on 100xDevs	09/2022 – 08/2026 Haryana, India
Sh Sn Sidheshwar Sr Sec School 8.5 GPA	04/2020 – 06/2022 Haryana, India

WORK EXPERIENCE

Full stack Developer Websjyoti	07/2024 – 08/2024 Gurugram, India
Web Development Intern NEXT24Tech - Worked on the Design and Development part of a fully responsive webpage for a particular section of Desi QnA. - Worked on User Verification/Authentication + Engineering challenges of detecting and removing the fake bots and posts. - Developed responsive web applications using HTML, CSS, and JavaScript frameworks.	24/01/2024 – 24/03/2024 LINK

SKILLS SUMMARY

Languages: Python, JAVA

Frameworks: Flask,Reactjs,Nextjs,TailwindCSS,JWT,Recoil,Prisma ORM,Node js

Tools: Cursor AI, Github Copilot ,Chatgpt

Soft Skills: Team Collaboration, People Management, Excellent communication

CERTIFICATES

Programming in Python (Udemy) - Mastered fundamental Python syntax, proficiently utilizing control flow, loops, functions, and data structures. - Acquired expertise in procedural programming paradigms and associated logical concepts, enhancing capabilities.	Generative AI(GFG) - Completed a Generative AI course from GeeksforGeeks, focusing on large language models, prompt engineering, and real-world applications using modern AI tools.

PROJECTS

Portfolio Builder

- Built a full-stack web application that enables users to create and customize portfolio websites with minimal effort.
- Utilized dynamic routing and server-side rendering with Next.js to support real-time template rendering.
- Applied consistent design using Tailwind CSS, Google Fonts integration, and global styling with animations.
- Enabled users to share, view, and download portfolio links with persistent backend storage using MongoDB.
- Added authentication features for saving user-specific portfolio data securely.
- Deployed the application using Vercel for optimized performance and fast load times.

Expense Tracker

- Designed and developed a full-stack web application to track daily expenses with real-time CRUD functionality.
- Enabled users to add, edit, delete, and categorize transactions with automated date tracking and sorting.
- Implemented user authentication using JWT and secured routes for personalized dashboards.
- Integrated MongoDB for persistent storage of user data, ensuring scalability and flexibility.

- Added real-time visual summaries (charts) to help users analyze monthly spending patterns.
